

MANY MAPS EXHIBITED

Abstract

It looked like a meeting of the geographical section of the American Association for the Advancement of Science in Judge De Bolt's courtroom. There are maps spread upon an easel, maps lying upon tables and settees, and when a witness takes the stand a map is thrust into his grasp. The trial of C. A. Brown's suit against J. D. Spreckels and others, for the recovery of some Hilo waterfront land, was on its second day yesterday, counting a day lost in trying to get the land boundaries made by the sea in land boundaries are among the elements making this a rather complicated case. Magoon & Lightfoot and Holmes & Stanley are conducting the plaintiff's case, and Kinney, McCiantan & Cooper that of the defendants. For seven years the controversy has been handled about in the courts of three judicial circuits, two or three changes of venues having taken place with the appellate court having to decide various side issues along the way.

THE DEAD MURDERER.
Suggesting the death of defendant Deputy Attorney General Fleming moved that a nolle prosequi be entered in the case of Territory vs. Hadio Gonsales, murder in the first degree. Judge Lindsay granted the motion. Though baying anxiously made

confession and promised to plead guilty of murder in the second degree, which if accepted would have saved him from the gallows at any rate, when Gonsalves was arraigned he repudiated the confession by pleading not guilty. Then, within a few weeks, he died by hanging.

An objection by W. C. Achi to an unstamped deed, offered in evidence in a government realization of \$12 in Judge Lindsay's court yesterday. I was in the jury waived case of *Lun Kin vs. Emma Keakahiwa*, a claim of damages for the detention of twelve water buffaloes. J. Mott-Smith appeared for plaintiff, and Achi for defendant. On the making of the objection mentioned, the plaintiff's attorney tendered \$12 in court to cover stamp and penalty. The tender was accepted and Clerk Sims took care of the money. As the judge was absent in the afternoon, the trial was continued till this morning.

THIS IS DIFFERENT.

W. R. Sims has completed his report as master on the accounts of Kalamo guardian of M. K. Waiiaulani, a minor, referred to him by Judge Lindsay. Whereas the guardian represented the ward's estate as owing him \$504, the master finds that he owes the estate \$718.70. T. F. Lansing is the guardian's surety on a bond in \$1000. Particulars of the guardian's manipulations of credits and debits, as strongly commented on by Judge Lindsay, were published by the Advertiser after the recent hearing. It was suggested by the court that a case of perjury existed which the Attorney General should take up. The master's report will be heard tomorrow.

COURT NOTES.
Not waiving objections in her over-

ruled demurrer, but insisting thereon defendant in the suit of Julia Kury vs. Pokli Davis makes a general denial to the complaint. C. W. Ashcroft is her attorney.

Demurrers to the beef trust complaint were filed in the Federal Court yesterday by A. M. Brown, American Sugar Co., D. P. Isenberg, J. L. Brown, A. W. Carter, R. Hind, M. Hyde Sugar Co. and E. E. Conant.

Deputy Sheriff Kalakalela executed writ of possession in the suit of Antonio D. Costa and Joe De Costa vs. Joe Vierra by removing defendant from the premises at Kamanakali, Kailua, and putting Joe De Costa in full po-

Martha E. Holloway has petitioned for a registered title to land at Wahiawa containing an area of 180.00 feet. It is bounded by California avenue, Mango street, Kilani avenue and a certain town lot.

A. G. M. Robertson yesterday afternoon filed his motion for a new trial of E. V. Richardson, convicted of embezzlement of public money and sentenced to one year's imprisonment.

Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is most dangerous.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin

regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.
